

# CodeRelay

CodeRelay is flagship and prestigious event of CSE Department. More than 100 people registering for this event on single week. This time we take this event to the next level by using ACM-Style online judge and ACM-Style Ranking. This round is summed up into 3 rounds. 10 of teams going to final round of CodeRelay.

CodeRelay will be conducted in 3 rounds :

**1. Judge your own Skill.**

This round will be conducted for 30 minutes where first member will solve MCQs and Second one will code for the given problems for about 15 minutes , later on they will swap the computers and continue for next 15 minutes respectively.

**2. Show your Team Spirit.**

This round will be continuing for 30-40 minutes where both the members will sit together to crack the code and try their best to qualify for final and last round.

**3. Platform to know where you stand.**

This is final round consisting of 10 qualified teams competing through the code for about 45 minutes .

MCQs in the competition will be on local server and problems solving will be performed in respective platforms , and thereafter upload the code for online judging in the respective server for code acceptance.

Coders can code in three different languages i. e. **C, C++ (having Platform Codeblocks ), JAVA ( in Netbeans).**

Operating System : Window 8/10.

**Prize Worth : 5000/-**
